

Aurora North Software CTO Attends Legaltech NYC as Discussion Leader of LegalCIO Forum

BURLINGTON, VT – January 11, 2017

Aurora North Software, Inc. today announced their sponsorship of the LegalCIO forum, as part of the annual Legaltech conference and trade show in New York City from January 31 thru February 2, 2017. Most notably, company CTO, Sheehan Lake will both represent Aurora North onsite and is appointed the discussion leader of one of the select LegalCIO panels. Lake, along with a legacy of insights from CIOs representing elite legal firms Baker Donelson, Cooley LLP, White & Case as well as Hughes, Hubbard & Reed LLP, will tackle the topic of "Enhancing End-User Experience and Combatting Technology Misuse". With a combined vast knowledge of both the legal industry as well as the ever evolving technology world, Lake will guide the discussion by extracting thoughtful and impactful responses from the panelists regarding: what users actually want; how to implement the tools that help report and manage misuse; the areas where underuse or misuse happens along with the associated costs; monitoring system usage to measure acceptance and finally; how to improve user adoption and experience by introducing applications that match the workflow and practices of legal firm or department staff.
